

## MX-300

### Digital Calculating Time Recorder

The MX-300 is the next step from a conventional time recorder. More features, easier operation and fully automatic recording make it a superior choice.

- **Calculates working hours for up to 50 employees**
- **Calculation of daily and weekly overtime**
- **Prints special marks to indicate an exception**
- **Accommodates weekly, bi-weekly or monthly payroll**
- **Up to 4 clockings per day**
- **Robust construction**
- **Time signal relay**

# MX-300

## Digital Calculating Time Recorder

The MX-300 is Amano's new digital calculating time recorder. With the ability to calculate the total working hours for up to 50 employees and record up to 4 clockings per day, it is the perfect step up from a basic clocking machine. Hours and overtime are instantly calculated and any exceptions such as lateness or absence are highlighted automatically allowing payroll to quickly process time cards.

### FEATURES

- Calculates working hours for up to 50 employees
- Regular worker and Hourly worker (Hourly worker: either open or fixed shift)
- Calculation of Monthly, Weekly, Bi-weekly
